

## Mixing Red and White to Make Pink

### Supplies:

- Coffee filter or plain white paper
- Red finger paint and white finger paint
- Paint brushes (optional)
- Scissors

### Directions:

- Place a small amount of red finger paint and white finger paint in the center of a coffee filter or plain white paper.
- Let the child mix the colors together with fingers to using a paint brush.
- Explain how mixing the red and white changes the color to pink. There will be many shade variations of pink from very dark to very light.
- Cut out the painted area into a heart shape for Valentine's Day.
