

Toilet Paper Corn Craft

Supplies You Will Need:

- Toilet paper tube or ½ of a paper towel tube
- Construction paper (yellow, orange, red, green)
- Glue stick
- Scissors
- Pencil

Directions for Corn Husk Rubbings:

1. Make small yellow, orange, and red circles out of construction paper using a die cut machine.
2. Use a glue stick to attach the circles in random color order in continuous rows until the tube is covered. You can choose to just cover the front of the tube since the back will be covered with green leaves.
3. Cut out 5 leaf shapes.

4. Attach 1 leaf on the back of the tube. Attach 1 leaf on each side. Then attach 2 leaves in the front.
5. Use a pencil to curl the tops of the leaves. Wrap the top of the leaf around the pencil until it has been folded around the pencil a couple of times. Unwind the pencil and remove and the paper should be curled.
